# South Beaverton NAC Meeting

Whether or not you knew this you are a member of the South Beaverton NAC by virtue of living or owning a business in this area. Membership costs nothing. If you never heard of a NAC come and find out what it is.

Main Topic: We started last year with city plans for roads and traffic but some too heavily used roads such as Scholls Ferry Road and Murray Blvd. are county roads. As population density increases with a fixed number of arteries there is only so much that can be done for traffic. This year the primary item for our first meeting is a presentation of Washington County plans for the main roads in our area including the long range transportation plan and the ultimate configuration of lanes.

Another traffic issue we must consider immediately is whether the Davies – Brockman intersection should get a traffic light. To quote the city traffic engineer, "The intersection marginally meets the warrants for a traffic signal. Due to the limited sight distance to the west, it is not clear whether a signal would improve safety or create new safety problems. In the past the South Beaverton NAC members have been divided on the issue." The Traffic Commission will consider this on October 2 so we will address this at our September meeting. A city engineer will be present to answer questions.

There will also be a presentation by the Christadelphians on their plans for a church on Murray Blvd.

The information contained in this flyer was developed by members of your Neighborhood Association Committee (NAC). It is distributed by the City of Beaverton's Neighborhood Program in an effort to promote and encourage public involvement. For additional information, please call the Neighborhood Program at (503) 526-2243.
